

SPECIALTY RETAIL

Built on a fast track basis in ten (10) weeks, this project was an interior fit-out of a currency exchange built for Travelex in Terminal 4 at JFK International Airport. The scope of work included construction of teller windows, offices, and conference rooms. High level finishes were installed consisting of wood wall paneling, curved glass walls, coffered gypsum board ceilings and rubber floor tile creating a map of the world on the floor surface.
